

SOME ECHOES FROM THE ALABAMA PRESS ASSOCIATION

DOTHAN, THE QUEEN OF SOUTHEAST ALABAMA WHO ENTERTAINED THE PRESS ASSOCIATION

Demopolis Times

The Press Association of Alabama was handsomely entertained in Dothan, the queen of the south eastern part of this grand old commonwealth, on June 16th and 17th.

The sessions were held in the handsome courthouse of Houston county. The members and their ladies were cared for by the hospitable people of the handsome young city. In the afternoon of the 16th and 17th automobile drives throughout the city and in different directions into the country around were greatly enjoyed. A sumptuous banquet at the Hotel Mulken and after dinner speeches were enjoyed on the night of the 17th. One of the most delightful parts of the banquet was the quantities of delicious packages. On the morning of the 15th the Commercial Club of Dothan took the crowd on a chartered train over the Atlanta & St. Andrews Bay road to Panama City and St. Andrews on the lovely bay of St. Andrew. We will tell about them next week.

Dothan where some 20 years or more ago a poplar tree, a little store and shop and a large clear cool delightfully pure and palatable spring were at the crossroads for that section—is now a beautiful city of some 8,000 souls 10 per cent of whom only are negroes.

We will not now stop to tell you what Dothan is made up of. You know what any city in the interior with three railroads and a fine farming country and timber country is.

Suffice it to say she receives about 100,000 bales of cotton. Just how she grew so rapidly and so quickly is one of the astonishing things. She grew and is growing, not with northern people nor western people, nor foreign people, but filling up, expanding and widening out with the natives of her surrounding country. It seems that some travelers from the distant parts of Henry Coffee Pike Geneva Dals and other counties happened to pass by that refreshing spring. We fancy that the water was so good in those parts that the little store keeper repeated the words of Longfellow to the passers by thus:

"Oh, weary traveler stay thy feet
Drink of this fountain pure and sweet
It flows for rich and poor the same
Then go thy way remembering
a hill
The way is well beneath the hill
These travelers told of the
spring and the topography of the
country. Others went down there
and finally moved to that place
where land was exceedingly cheap
the railroad passed through and
then another railroad and then
more people and then another
railroad until Dothan became
famous. The little farms owned
and operated by white people at
most exclusively, have largely to
do with Dothan's great growth.
The country around for many
miles, is thickly settled and culti-
vated. The soil is sandy and with
a clay foundation. The native
wiregrass, carpet grass and weeds
are easy to kill. The land easily
to cultivate and yields quickly

and bountifully to fertilizers. All of the farmers have to use fertilizers freely. They do it intelligently and profitably. Cotton yields down there from one half to two bales per acre. Corn from 30 to 60 bushels per acre. They raise their own meats. While the Press people were there the farmers brought in sides of bacon for sale. The merchants sell very little meat and lard. The farmer plants peanuts in the middles in his corn fields and plants on the Williams plan about six feet apart. When the corn is gathered he turns his hogs in and they grow and fatten about Christmas he puts them up and feeds on corn a month. This gives him most delicious meat and lard. These are the people who back up Dothan in a radius of some 50 or 75 miles. When other cities will be as prosperous as Dothan is prosperous.

The City People

There is not a more homogenous people anywhere to be found than these folks. They think alike, they act alike, they move in harmony, they pull together, they praise and commend each others virtues. They say it is the fault of their shortcomings. The purpose is to build up Dothan and make a great inland city. They have fine churches and homes for their preachers thus showing their pride and their faith in an All-wise and Merciful Father. They give fine schools and lots of them. They have all the modern conveniences and will soon have electric service.

They are hospitable, generous, generous, active and shrewd in business. In fact she is made up of good men, of good nobles and charming women. Those of us of the Press who had the good fortune to go to Dothan will ever remember the delightful two days spent there and the delightful Dothan people we met and mingled with there and at St. Andrews Bay.

The Overalls

We were so proud to see the honor that is paid to the overalls down in Dothan and in her surrounding country. Everybody knows that the white people work in that country and they get rich working in overalls. There are no bad people down there. The working man, with his overalls, is as much respected at the bank as the one of the finest and most modern dairies is to be found near Dothan operated by three brothers the Messrs. Hall. They are educated. They do all their own work. Have a very hard some herd of Jerseys and sell butter and milk and fine calves all over the country. They farm all so feed and milk morning and afternoon and plow and hoe in the middle of the day. They wear overalls but when not at work they dress neatly and are fine looking fellows. They stand high down there and are making money and it health lasts they, as many others like them have done, are going to get rich.

We wish we had space to say more of Dothan and her surrounding country and to mention lots of those fine people by name but we haven't and we can't do as we would like.

EAST ALA. PRESBYTERY

WILL BE IN SESSION HERE TOMORROW

The East Alabama Presbyterian Synod meets tomorrow, Tuesday, in the Presbyterian church. There will be an afternoon session beginning at 2 o'clock. Among other items of business it is expected that a candidate for licensure will come before the presbytery and that he will be called upon to preach a sermon in the course of the afternoon.

It is further expected that the presbytery will in the evening at 8 o'clock install as pastor of the church Rev. G. L. Bell who has been serving for two months as an acting pastor. It is then that the presbytery will appoint Rev. H. M. Edwards of the First Presbyterian church of Montgomery to preach and pitch and preach the constitution and position and Rev. R. S. Burwell of Oxford to charge the pastor and Rev. F. H. Hadden of Geneva to have the people.

It is earnestly hoped by our congregation that the people of the entire community will keep the installation service in mind and attend.

SECOND DISTRICT SUNDAY SCHOOL CONVENTION

The Sunday school convention of the Second Houston County District held at Big Creek church on Sunday July 4th was largely attended. O. M. Murphy, who has been called to leave the district to act as secretary, short addresses were made by Messrs. W. R. Flowers, J. H. Bryan, M. Cherry, J. W. Hollister, M. S. Davis and Rev. Charles Rodgers. Others joined in the general discussion of Sunday school matters. The object of the Sunday school convention is to promote the better organization of the Sunday schools of the county and the schools of the Second District are to be congratulated upon the interest manifested in the work.

Others in attendance from Dothan were J. J. Whaley, J. R. Malone and J. R. Crawford.

WOODMEN & PICNIC

The Woodmen will have a two days' picnic at Panama City tomorrow and Wednesday. While the Woodmen are getting up the picnic all who wish to attend may go. The fare will be one dollar for the round trip, the tickets good for two days. Tickets will be on sale this afternoon and tonight at Young's drug store and the Central drug store. So get your tickets this evening and not be delayed by a rush in the morning.

NEW BUSINESS

Jamie Batchelor and Earl Fritter have rented the J. A. May Co. stables and will open up a garage for the maintenance and care of automobiles. This is a business the public has long looked for and why it was not started sooner no one knows.

Jamie Batchelor has had several years experience handling automobiles and is possibly able to remedy every automobile ill. There is no reason why the business shouldn't be a profitable one.

KILLED AT BAINBRIDGE

WILL SCARBROUGH STRUCK BY FREIGHT TRAIN

W. L. Scarbrough, about twenty years of age, was struck by an A. C. T. freight train at Bainbridge and killed. He was running out of the city when the train came.

The train was going west and Scarbrough was going east. He was struck by the engine.

Scarbrough was a native of Dothan and was well known in the city.

He was a member of the Dothan Baptist church and was a very good man.

His death is a great loss to the community and his friends are very sorrowful.

Funeral services will be held at the Dothan Baptist church on Wednesday afternoon.

The funeral will be at 2 o'clock and the interment will be in the Dothan cemetery.

BALLOON WENT OVER.

This evening about 8 o'clock, a balloon passed over the northern part of the city. It was reported that it started from Atlanta with three men in it. They never stopped at Dothan, which is a pity.

For Sale—My home on South street at a bargain. Modern improvements. G. W. Kelley.

We have with us for two or three days Mr. Edward Somering, an expert piano tuner who, while tuning your tuning will also be glad to do yours. Phone us at once if you wish his services. J. W. Goff, Music Co.

TOMORROW THE DAY

The old soldiers' picnic comes off tomorrow at Richards Springs. General Otter and Congressman Clayton are to be there to make speeches. Be sure and go and carry dinner for someone else.

Mr. T. D. Sale went to Southport this afternoon.

Worn Women

Women, worn and tired from overwork, need a tonic. That feeling of weakness or helplessness will not leave you of itself. You should take Wine of Cardui, that effectual remedy for the ailments and weaknesses of women. Thousands of women have tried Cardui and write enthusiastically of the great benefit it has been to them. Try it—don't experiment—use this reliable, oft-tried medicine.

TAKE CARDUI

The Woman's Tonic

Mrs. Rena Hare, of Pierce, Fla., tried Cardui and afterward wrote: "I was a sufferer from all sorts of female trouble, had pain in my side and legs, could not sleep, had shortness of breath. I suffered for years, until my husband insisted on my trying Cardui. The first bottle gave me relief and now I am almost well. Try Cardui. It will help you."

JUST A FAKE.
In last Thursday's Montgomery Advertiser, appeared a notice under the head "Recent Ice Plant."

The article went on to state that Montgomery capital was being invested in Panama City, by the Montgomery Ice and Cold Storage Company. In another paragraph, this is found, "Officials of the Montgomery company said yesterday the papers would be signed before the end of the week."

It is well known that two ice factories are already doing business on the Gulf coast, one at Panama City, the other at St. Andrews, and it is generally known that they can and do make more ice than is needed down there. One of the men interested in the Panama Ice Company wrote the Montgomery Ice and Cold Storage Company, to find out something about it, and this is what the vice-president and general manager wrote in reply:

"We did not know that Panama City was on the map until we saw the article in the Advertiser. We have no idea of going into business at that point."

The Advertiser is hardly evaded by a piece of fake news but this is clearly one. However it hurts no one, but the Advertiser ought to make public its source of information about the article.

WHAT GORE SAID.

The blind Senator from Oklahoma is one of the most brilliant men in the United States Senate. Recently he made a speech on the tariff on wood pulp. Following is an extract from that speech:

"Not only does the government tax the press, tax the type, and tax the paper of the editor and printer, but it enters into active competition with them. The government advertises for business and accepts contracts to print private cards, or, rather, to print the names of private parties upon stamped envelopes. There are many socialists in this country, and when their theories are adopted in practice, then, and not till then, should the general government enter into competition with the private citizen for private business of this description."

"A letter was read here this morning which, it seemed to me, east an unwarranted and unprovoked reflection upon the publishers of this country. The paper charged that free paper was being urged solely 'for the benefit of the opulent editors.' There are, indeed, a few editors who have waxed wealthy, but there is a vast majority, approaching nigh to unanimity, who were born poor and have held their own ever since. There are many who would not have to journey to Africa in order to find the tracks of the wolf. There are many weekly editors I know who have to wrestle with the bread question like St. George of old with the dragon."

MEET WEDNESDAY NIGHT

Dothan Commandery will meet next Wednesday night in special session to do some Red Cross work. Be there early for the unfortunate.

PESSIMIST
Yesterday we said that the every day clothes of the Optimist, the good, was disinterested work in the interest of others, sweet spirit, geniality, good humor. Today that the every-day clothes of the pessimist, or bad, is that all lightnings are dangerous, that every thunderstorm is a hurricane, that the conditions of our Government are foul, and not adjusted to the great majority, that the social world as a whole is afflicted with that which is unhealthy, that Christianity itself provides less than it gives. Many who have joined themselves to this idea have been the beneficiaries of the highest forms of civilization. To them has been given that for which they haven't proved themselves worthy of the condition in which they have lived. They have chosen to remain idle while the world in commerce, religion and civics has marched on and will continue to march while they remain idle and disappointed.
It is the truth that the good as well as the bad have indignation for this we guarantee HOLLAN'S DYSPEPTIC ELIXIR. For sore eyes, we do the same for HOLLAN'S EYE WATER. For Colic a Dysentery use HOLLAN'S COLIC MIXTURE. For flatulence, a Constipation use ST. MARK'S LIVER REGULATOR. For malar fever, HOLLAN'S HEADACHE TABLETS will never disappoint you. Now to the optimist and pessimist, we say to all alike, if our money, time and life work is behind the preparations that offer you. They supply remedial preparations on account arrangement of formulae that come from the East or West. If you are not satisfied with the price of medicines bearing our name, we will always be glad to refund the money. If you have the ailment we have the remedy.

July Jewellery

The glorious Ruby should adorn those who in warm July are born. Then will they be exempt and free from care, doubt and anxiety.

The Ruby is the most valuable of fancy colored gems. Those of a good color, pure and brilliant, and in sizes of one carat and larger, are more valuable than fine diamonds of the same size.

The oriental ruby of pigeon-blood color is the most valuable.

We are prepared to provide choice Rubies in any special mounting or design upon short notice.

Ruby doublets, correctly imitating the finest real gems, may be had here in all mountings.

MEN PAST FIFTY IN DANGER

Men past middle life have found comfort and relief in Foley's Kidney Remedy especially of enlarged prostate gland, which is very common among elderly men. L E Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint." MISS HELEN CARTER GIVES MOONLIGHT PICNIC

Friday evening at her home on Oaks street, Miss Carter entertained in honor of Misses Willie Belle Morris, of Samson, and Sarah Walker, of Alexandria City, with quite a novel hay ride and picnic. The guests arrived, expecting to be given a ride in wagons to some place in the country, where they would enjoy a picnic by moonlight.

And the wagon was ready made comfortable and inviting with a quantity of sofa pillows, but to behold! this particular wagon had no wheels or horses to pull it, and consequently when the happy crowd were comfortably seated, they found they were still on the veranda, and were not for a good time without the discomfort of a single jolt of the wagon over country roads. When the driver, from his seat in front, announced that they had reached their destination the guests alighted and were refreshed by dippers of punch served from tin cups, colored like pink lemonade—the usual picnic drink. All the delightful punch had been served by Miss Willie Pearl Carter and Miss Lillian Parish, picnic lunches were served the guests being seated in couples. Those invited were, Misses Willie B. Morris, of Samson, Sarah Walker, of Alexandria City, Annie Florence, Frankie Howell, Nell Bowdom, Lucile McClure, Lilla Dell Gertude Venable, Louise Chudmen, Beanie Whiddon, Matt Crawford, Mabel Hill Winnie Saxon, Florrie Malone, Gussie Stallings, Virgie Harrison, Maudie Edwin Brooks, Marvin Harrison Howard Roland, Mike Cotton Ralph Ghent, Charlie Newton, J. T. Newman Emmett Steele Bruce Dickenson Heard Saxon Rex Wilkinson, Shelley Garner, Max Garner, Lester Farmer, Frank Boham and George L. Campbell, of Columbia.

Mr and Mrs J. W. Cassady and Mrs F. A. Preston, of Samson, and Mr and Mrs C. I. Cassady, of Columbia, returned last night from Panama City.

Mr E. L. Layfield returned Saturday night from Columbia where he spent the Fourth of July holidays with relatives.

Messrs J. I. G. N. and J. C. Traummell, who have been conducting a studio here, left yesterday for Montgomery and other places.

Messrs W. R. West, Will Roberts and C. M. Carlisle, of Headland, were in Dothan Saturday night and went to Panama Sunday morning.

Mr and Mrs S. P. Seals, of Troy, were in Dothan Saturday night on their way to St. Andrews.

Messrs Wilbur Parker, J. W. Carroll and O. Atkins, of Ozark, were here Saturday night and went to Panama Sunday.

Mr O. C. Doster, Jr., of Enterprise was here yesterday.

Mr J. P. Tarver, of Blakely was a Sunday visitor to Dothan.

Messrs W. W. Wofford, Jim and Fred Adams, of Gordon, took in the trip to Panama yesterday.

Mr Ollie G. Strickland, who is now living in Montgomery, is visiting friends and relatives in the city.

FIGURES ON HUSBANDS

In the light of the clamor over the increase in divorces it seems but meet that some tribute should be paid to the men who of them all are least inclined to sever the marital relation, but who travel contentedly with one wife to the end of the road. This most constant man is authoritatively known through no less reliable information than that compiled by the census bureau in its 1900. He is the railroad firm and cuprous man, who enters the married class but one in 110 later attempts to put aside his wife. He is vastly more constant as a married man than even the deep man who is so fondly a unit divorcee. For these latter find their way to the court in one case out of eighty-seven. The figure breaks the belief that but in one case in ninety-two which ranks high for constancy as the railroads. On the other extreme the figures show the great tendency to divorce in the past. It is one out of six men, who put aside their wives in one case out of six. Traveling salesman shows a twenty-second out of the one hundred and a divorcee in one case out of nine. After the three divorces in a week and half in the race for the divorce rate. These figures are not bad and are not as alarming as the figures for divorces in one case out of twenty-two. Twenty-three and twenty-four respectively. The physician is divorced more often than any other professional man of his class. This information may be found valuable in many ways than one, but is particularly recommended for the consideration of the women. Taking it that in entering the realm of matrimony women's object is to remain married here are the facts as to the chances she must take in the given profession. Taken it, on the other hand that the object of the woman is to obtain for her all that particular charm that seems inexplicably to draw attention to a woman once married her safest chance is shown to be in mating with the actor man or the traveling salesman for these are prone to divorce. Seriously the figures on husbands are of very great value there are few professions of the nation that rank higher in importance than the husband crop. That of wives is on a par with it and if the facts could be compiled showing the source of the most reliable wives it would be worth the price of a census to get it. But the engineer and the fireman have brought to themselves additional honors. Already having earned for themselves a place in the hall of fame because of their many acts of heroism and self sacrifice and weighted down

A WORD ABOUT BABIES

In speaking of a car load of babies being shipped to Texas to be placed in the homes of the childless the editor of the Harpoon has this to say among other things:

When a country is blessed with such a climate such marvelous opportunities for making not only a good living but for the accumulation of a comfortable fortune when young girls become known women before they are old enough to vote and are so kind and bewitching they are almost to go home in the dark it is a shame and a disgrace to be compelled to ship in car loads of foreign babies to supply the demand for household pets. They may seem silly and possibly do not sound like a joke, but it is the Lord's truth.

I am firmly convinced that a foolish marriage is the cause of more real punishment and affliction. When life is young and rather glibly a bouquet of little human beings may seem innumerable, but as the years pass by and the hours begin to frost, a child's home is a plain ordinary fact and I really pity those who are unfortunate enough to have to endure it. People who have never been to the theatre of nature are not in a position to appreciate the show or discuss its merits or denigrate its intelligence and the unfortunate whose homes have never been cramped and torn up and almost demolished by a gang of happy little rolicking kids will never know what real life consists of until they try it. Just as the poor heart broken fathers and mothers who have nothing left except some little flower covered grave down in the cemetery and they will tell you home is ruined and joy is gone since baby died. They know what it is to live and to lose a "lose."

This needs no comment. He has said all that is necessary.

Mr R. G. Parish returned this afternoon from a short visit to his home at Adel, Ga. He was accompanied by his sister Miss Sarah Parish. They will leave tomorrow for an extended trip to Denver, Colorado.

SOME ECHOES FROM THE ALABAMA PRESS ASSOCIATION

DOTHAN, THE QUEEN OF SOUTHEAST ALABAMA WHO ENTERTAINED THE PRESS ASSOCIATION

Demopolis Times

The Press Association of Alabama was handsomely entertained in Dothan, the queen of the south eastern part of this grand old commonwealth, on June 16th and 17th.

The sessions were held in the handsome courthouse of Houston county. The members and their ladies were cared for by the hospitable people of the handsome young city. In the afternoon of the 16th and 17th automobile drives throughout the city and in different directions into the country around were greatly enjoyed. A sumptuous banquet at the Hotel Mulken and after dinner speeches were enjoyed on the night of the 17th. One of the most delightful parts of the banquet was the quantities of delicious packages. On the morning of the 15th the Commercial Club of Dothan took the crowd on a chartered train over the Atlanta & St. Andrews Bay road to Panama City and St. Andrews on the lovely bay of St. Andrew. We will tell about them next week.

Dothan where some 20 years or more ago a poplar tree, a little store and shop and a large clear cool delightfully pure and palatable spring were at the crossroads for that section—is now a beautiful city of some 8,000 souls 10 per cent of whom only are negroes.

We will not now stop to tell you what Dothan is made up of. You know what any city in the interior with three railroads and a fine farming country and timber country is.

Suffice it to say she receives about 100,000 bales of cotton. Just how she grew so rapidly and so quickly is one of the astonishing things. She grew and is growing, not with northern people nor western people, nor foreign people, but filling up, expanding and widening out with the natives of her surrounding country. It seems that some travelers from the distant parts of Henry, Coffee, Pike, Geneva, Dale and other counties happened to pass by that refreshing spring. We fancy that the water was so good in those parts that the little store keeper repeated the words of Longfellow to the passers by thus:

"Oh, weary traveler stay thy feet
Drink of this fountain pure and sweet
It flows for rich and poor the same
Then go thy way remembering
a hill
The way is well beneath the hill
These travelers told of the
spring and the topography of the
country. Others went down there
and finally moved to that place
where land was exceedingly cheap
the railroad passed through and
then another railroad and then
more people and then another
railroad until Dothan became
famous. The little farms owned
and operated by white people at
most exclusively, have largely to
do with Dothan's great growth.
The country around for many
miles, is thickly settled and culti-
vated. The soil is sandy and with
a clay foundation. The native
wiregrass, carpet grass and weeds
are easy to kill. The land easily
to cultivate and yields quickly

and bountifully to fertilizers. All of the farmers have to use fertilizers freely. They do it intelligently and profitably. Cotton yields down there from one half to two bales per acre. Corn from 30 to 60 bushels per acre. They raise their own oats. While the Press people were there the farmers brought in sales of hogs for sale. The merchants sell very little meat and lard. The farmer plants peanuts in the middle of his corn fields and plants on the Williams plan about six feet apart. When the corn is gathered he turns his hogs in and they grow and fatten about Christmas he puts them up and feeds on corn a month. This gives him most delicious meat and lard. These are the people who back up Dothan in a radius of some 30 or 75 miles. When other cities will be as prosperous as Dothan is prosperous.

The City People

There is not a more homogenous people anywhere to be found than these folks. They think alike, they act alike, they move in harmony, they pull together, they praise and commend each others virtues. They say it is the fault of their shortcomings. The purpose is to build up Dothan and make a great inland city. They have fine churches and homes for their preachers thus showing their pride and their faith in an All-wise and Merciful Father. They give fine schools and lots of them. They have all the modern conveniences and will soon have electric service.

They are hospitable, generous, aggressive, active and shrewd in business. In fact she is made up of good men of good nobles and charming women. Those of us of the Press who had the good fortune to go to Dothan will ever remember the delightful two days spent there and the delightful Dothan people we met and mingled with there and at St. Andrews Bay.

The Overalls

We were so proud to see the honor that is paid to the overalls down in Dothan and in her surrounding country. Everybody knows that the white people work in that country and they get rich working in overalls. There are no bad people down there. The working man, with his overalls is as much respected at the bank as one of the finest and most modern dairies is to be found near Dothan operated by three brothers the Messrs. Hall. They are educated. They do all their own work. Have a very hard cow herd of Jerseys and sell butter and milk and fine calves all over the country. They farm all so feed and milk morning and afternoon and plow and hoe in the middle of the day. They wear overalls but when not at work they dress neatly and are fine looking fellows. They stand high down there and are making money and it health lasts they, as many others like them have done, are going to get rich.

We wish we had space to say more of Dothan and her surrounding country and to mention lots of those fine people by name but we haven't and we can't do as we would like.

EAST ALA. PRESBYTERY

WILL BE IN SESSION HERE TOMORROW

The East Alabama Presbyterian Synod meets tomorrow, Tuesday, in the Presbyterian church. There will be an afternoon session beginning at 2 o'clock. Among other items of business it is expected that a candidate for licensure will come before the presbytery and that he will be called upon to preach a sermon in the course of the afternoon.

It is further expected that the presbytery will in the evening at 8 o'clock install as pastor of the church Rev. G. L. Bell who has been serving for two months as an acting pastor. It is then that the presbytery will appoint Rev. H. M. Edwards of the First Presbyterian church of Montgomery to preach and pitch and preach the constitution and position and Rev. R. S. Burwell of Oxford to charge the pastor and Rev. F. H. Hadden of Geneva to have the people.

It is earnestly hoped by our congregation that the people of the entire community will keep the installation service in mind and attend.

SECOND DISTRICT SUNDAY SCHOOL CONVENTION

The Sunday school convention of the Second Houston County District held at Big Creek church on Sunday July 4th was largely attended. O. M. Murphy, who has been called to leave the city, was requested to act as secretary. Short addresses were made by Messrs. W. R. Flowers, J. H. Bryan, M. Cherry, J. W. Hollister, M. S. Davis and Rev. Charles Rodgers. Others joined in the general discussion of Sunday school matters. The object of the Sunday school convention is to promote the better organization of the Sunday schools of our county and the schools of the Second District are to be congratulated upon the interest manifested in the work.

Others in attendance from Dothan were J. J. Whaley, J. R. Malone and J. R. Crawford.

WOODMEN & PICNIC

The Woodmen will have a two days' picnic at Panama City tomorrow and Wednesday. While the Woodmen are getting up the picnic all who wish to attend may go. The fare will be one dollar for the round trip, the tickets good for two days. Tickets will be on sale this afternoon and tonight at Young's drug store and the Central drug store. So get your tickets this evening and not be delayed by a rush in the morning.

NEW BUSINESS

Jamie Batchelor and Earl Fritter have rented the J. A. May Co. stables and will open up a garage for the maintenance and care of automobiles. This is a business the public has long looked for and why it was not started sooner no one knows.

Jamie Batchelor has had several years experience handling automobiles and is possibly able to remedy every automobile ill. There is no reason why the business shouldn't be a profitable one.

DOTHAN MUST HAVE IT

The headquarters of the United States Veterans will soon be located in this, the Third Congressional district and there is no doubt but that Dothan is the proper place to establish such headquarters. First it is easily reached from any section and secondly it is more centrally located with respect to population.

By Owens the commander of the Third district and we think that he will recommend that the headquarters be located here.

There is no question but that the most fitting spot in the district could be established in Dothan for the headquarters of the United States Veterans.

The Commercial Club might do some effective work along this line by mapping out a campaign.

John Carr, who lives in town and is trying to farm, sent a letter this morning in talk of corn cut down before it time that is twenty-two feet high in some places. It only had two places for the corn to grow and was not evidently grown by the Williams in north. One would have to have a top holder to pull the corn and in no way to pull the fodder.

Worn Women

Women, worn and tired from overwork, need a tonic. That feeling of weakness or helplessness will not leave you of itself. You should take Wine of Cardui, that effectual remedy for the ailments and weaknesses of women. Thousands of women have tried Cardui and write enthusiastically of the great benefit it has been to them. Try it—don't experiment—use this reliable, oft-tried medicine.

TAKE CARDUI

The Woman's Tonic

Mrs. Rena Hare, of Pierce, Fla., tried Cardui and afterward wrote: "I was a sufferer from all sorts of female trouble, had pain in my side and legs, could not sleep, had shortness of breath. I suffered for years, until my husband insisted on my trying Cardui. The first bottle gave me relief and now I am almost well. Try Cardui. It will help you."

JUST A FAKE.

In last Thursday's Montgomery Advertiser, appeared a notice under the head "Recent Ice Plant."

The article went on to state that Montgomery capital was being invested in Panama City, by the Montgomery Ice and Cold Storage Company. In another paragraph, this is found, "Officials of the Montgomery company said yesterday the papers would be signed before the end of the week."

It is well known that two ice factories are already doing business on the Gulf coast, one at Panama City, the other at St. Andrews, and it is generally known that they can and do make more ice than is needed down there. One of the men interested in the Panama Ice Company wrote the Montgomery Ice and Cold Storage Company, to find out something about it, and this is what the vice-president and general manager wrote in reply:

"We did not know that Panama City was on the map until we saw the article in the Advertiser. We have no idea of going into business at that point."

The Advertiser is hardly evaded by a piece of fake news but this is clearly one. However it hurts no one, but the Advertiser ought to make public its source of information about the article.

WHAT GORE SAID.

The blind Senator from Oklahoma is one of the most brilliant men in the United States Senate. Recently he made a speech on the tariff on wood pulp. Following is an extract from that speech:

"Not only does the government tax the press, tax the type, and tax the paper of the editor and printer, but it enters into active competition with them. The government advertises for business and accepts contracts to print private cards, or, rather, to print the names of private parties upon stamped envelopes. There are many socialists in this country, and when their theories are adopted in practice, then, and not till then, should the general government enter into competition with the private citizen for private business of this description."

"A letter was read here this morning which, it seemed to me, cast an unwarranted and unwelcome reflection upon the publishers of this country. The paper charged that free paper was being urged solely 'for the benefit of the opulent editors.' There are, indeed, a few editors who have waxed wealthy, but there is a vast majority, approaching nigh to unanimity, who were born poor and have held their own ever since. There are many who would not have to journey to Africa in order to find the tracks of the wolf. There are many weekly editors I know who have to wrestle with the bread question like St. George of old with the dragon."

MEET WEDNESDAY NIGHT

Dothan Commandery will meet next Wednesday night in special session to do some Red Cross work. Be there early for the unfortunate.

MANTEO EXCURSION TO NEW ORLEANS \$18.00

Atlanta and St. Andrews Bay Railroad Co. and the Mobile and Gulf Steamship Company, offer this round trip, Dothan to New Orleans and return on Steamship Manteo, sailing Tuesday, July 20, on arrival of train No. 1 leaving Dothan at 3:15 p.m. This includes berth, meals for the entire round trip which will consume seven days.

Schedule.

Leave Panama City, Tuesday, July 20, arrive at Pensacola 5 a.m., Wednesday. Leave Pensacola at 9 a.m., arrive at New Orleans 1 p.m. Thursday. Returning, leave New Orleans at 1 p.m. Friday, arrive at Mobile at 9 a.m. Saturday. Leave Mobile Sunday at 8 p.m., arrive Pensacola at 6 a.m. Monday. Leave Pensacola at 6 p.m. Monday, arrive at Panama City 5 a.m. Tuesday, 27th.

This will give persons availing themselves of this trip one solid week of delightful pleasure, and to see all of the lower Mississippi by day and also Mobile Bay by day. It allows at least 24 hours at three of the largest cities on the Gulf coast.

PESSIMIST

Yesterday we said that the every day clothes of the Optimist, the good, was disinterested work in the interest of others, sweet spirit, geniality, good humor. Today that the every-day clothes of the pessimist, or bad, is that all lightnings are dangerous, that every thunderstorm is a hurricane, that the conditions of our Government are foul, and not adjusted to the great majority, that the social world as a whole is afflicted with that which is unhealthy, that Christianity itself provides less than it gives. Many who have joined themselves to this idea have been the beneficiaries of the highest forms of civilization. To them has been given that for which they haven't proved themselves worthy of the condition in which they have lived. They have chosen to remain idle while the world in commerce, religion and civics has marched on and will continue to march while they remain idle and disappointed.

It is the truth that the good as well as the bad have indignation for this we guarantee **HOLLAN'S DYSPEPTIC ELIXIR**. For so eyes, we do the same for **HOLLAN'S EYE WATER**. For Colic a Dysentery use **HOLLAN'S COLIC MIXTURE**. For flatulence, a Constipation use **ST. MARK'S LIVER REGULATOR**. For malar fever, **HOLLAN'S HEADACHE TABLETS** will never disappoint you. Now to the optimist and pessimist, we say to all alike, if our money, time and life work is behind the preparations that offer you. They supply remedial preparations on account arrangement of formulae that come from the East or West. If you are not satisfied with the price of medicines bearing our name, we will always be glad to refund the money. If you have the ailment we have the remedy.

July Jewellery

The glorious Ruby should adorn those who in warm July are born. Then will they be exempt and free from care, doubt and anxiety.

The Ruby is the most valuable of fancy colored gems. Those of a good color, pure and brilliant, and in sizes of one carat and larger, are more valuable than fine diamonds of the same size.

The oriental ruby of pigeon-blood color is the most valuable.

We are prepared to provide choice Rubies in any special mounting or design upon short notice.

Ruby doublets, correctly imitating the finest real gems, may be had here in all mountings.

MEN PAST FIFTY IN DANGER

Men past middle life have found comfort and relief in Foley's Kidney Remedy especially of enlarged prostate gland, which is very common among elderly men. L E Morris, Dexter, Ky., writes "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint."

MISS HELEN CARTER GIVES MOONLIGHT PICNIC

Friday evening at her home on Oak street, Miss Carter entertained in honor of Misses Willie Belle Morris, of Samson, and Sarah Walker, of Alexandria City, with quite a novel hay ride and picnic. The guests arrived, expecting to be given a ride in wagons to some place in the country, where they would enjoy a picnic by moonlight.

And the wagon was ready made comfortable and inviting with a quantity of sofa pillows, but to and behold! this particular wagon had no wheels or horses to pull it, and consequently when the happy crowd were comfortably seated, they found they were still on the veranda, and were not for a good time without the discomfort of a single jolt of the wagon over country roads. When the driver, from his seat in front, announced that they had reached their destination the guests alighted and were refreshed by dippers of punch served from tin cups, colored like pink lemonade—the usual picnic drink. All the delightful punch had been served by Miss Willie Pearl Carter and Miss Lillian Parish. Picnic lunches were served the guests being seated in couples. Those invited were, Misses Willie B. Morris, of Samson, Sarah Walker, of Alexandria City, Annie Florence, Frankie Howell, Nell Bowdon, Lucile McClure, Lillie Dell Gertrude Venable, Louise Chiduen, Beattie Whiddon, Matt Crawford, Mabel Hill, Winnie Saxon, Florrie Malone, Greta Ma Stallings, Virgie Harrison, Miss Edwin Brooks, Marvin Harrison Howard Rohaud, Mike Cotton Ralph Ghent, Charlie Newton, J. T. Newman Emmett Steck, Bruce Dickinson Heard Saxon Rex Wilkinson, Shelley Garner, Max Garner, Lester Fattori, Frank Boham and George L. Campbell, of Columbia.

Mr and Mrs J. W. Cassady and Mrs F. A. Preston, of Samson, bridge, and Mr and Mrs C. I. Cassady, of Columbia, returned last night from Panama City.

Mr E. L. Layfield returned Saturday night from Columbus where he spent the Fourth of July holidays with relatives.

Messrs J. I. G. N. and J. C. Trammell, who have been conducting a studio here, left yesterday for Montgomery and other places.

Messrs W. R. West, Will Roberts and C. M. Carlisle, of Headland, were in Dothan Saturday night and went to Panama Sunday morning.

Mr and Mrs S. P. Seals, of Troy, were in Dothan Saturday night on their way to St. Andrews.

Messrs Wilbur Parker, J. W. Carroll and O. Akins, of Ozark, were here Saturday night and went to Panama Sunday.

Mr O. C. Doster, Jr., of Enterprise was here yesterday.

Mr J. P. Tarver, of Blakely was a Sunday visitor to Dothan.

Messrs W. W. Wofford, Jim and Fred Adams, of Gordon, took in the trip to Panama yesterday.

Mr Ollie G. Strickland, who is now living in Montgomery, is visiting friends and relatives in the city.

FIGURES ON HUSBANDS

In the light of the clamor over the increase in divorces it seems but meet that some tribute should be paid to the men who of them all are least inclined to sever the marital relation, but who travel contentedly with one wife to the end of the road. This most constant man is authoritatively known through no less reliable information than that compiled by the census bureau itself. He is the railroad firm and efficient man who enters the matrimonial lists but one in 140 later attempts to put aside his wife. He is vastly more constant as a married man than even the clergyman who tries so hard to make a divorce for these latter find their way to the court in one case out of eighty-seven. The bureau makes the best of both worlds in its figures, which make a high divorce rate as the outfalling on the other extreme the figures show the great tendency to divorce on the part of actors and showmen, who put aside their wives in one case out of six. Traveling salesmen show an eighty-second only to the actor and a divorce in one case out of nine. After these three classes, the husband and wife in the tier for the divorce rate. These are musicians, bartenders and physicians which callings get divorces in one case out of twenty-two, twenty-three and twenty-four respectively. The physician is divorced more often than any other professional man of his class. This information may be found valuable in many ways than one, but is particularly recommended for the consideration of the women. Taking it that in entering the realm of matrimony women's object is to remain married here are the facts as to the chances she must take in the given profession. Taking it on the other hand that the object of the woman is to obtain for her all that particular charm that seems inexplicably to draw all men to a woman once married, her safest chance is shown to be in mating with the actor man or the traveling salesman for these are prone to divorce. Scarcely the figures on husbands are of very great value then are few products of the nation that rank higher in importance than the husband crop. That of wives is on a par with it and if the facts could be compiled showing the source of the most reliable wives it would be worth the price of a census to get it. But the engineer and the fireman have brought to themselves additional honors. Already having earned for themselves a place in the hall of fame because of their many acts of heroism and self sacrifice and weighted down

with the daily responsibility for many lives, the men have gone into a new field and conquered. And these might well be styled the greatest heroes of the small town, when all is said and done the home life is the true test of the man.—Washington Post.

A WORD ABOUT BABIES

In speaking of a car load of babies being shipped to Texas to be placed in the homes of the childless, the editor of the Harpagon has this to say among other things:

When a country is blessed with such a climate such marvelous opportunities for making not only a good home but for the accommodation of a comfortable for two when young girls become town women before they are old enough to vote and are so kind some and bewitching they are drawn to go home in the dark of moonshine and a dagger to be applied to ship in car loads of Northern babies to supply the demand for household pets. They may seem silly and possibly do sound like a joke, but it is the Lord's truth.

I am firmly convinced that a child's marriage is the cause of more tried punishment and affliction. When life is young and cheerful, a bouquet of little human beings may seem innumerable, but as the years pass by and the home begins to frost, a child's home is a plain ordinary hall and I really pity those who are unfortunate enough to have to endure it. People who have never been to the theatre of course are not in a position to appreciate the show or discuss its merits or denigrate its intelligence and the untalented whose homes have never been cramped and cramped and almost demolished by a genre of happy little collecting birds will never know what real life consists of until they try it. Just as the poor heartbroken fathers and mothers who have nothing left except some little flower covered grave down in the cemetery and they will tell you home is ruined and joy is gone since baby died. They know what it is to have and to lose.

This needs no comment. He has said all that is necessary.

Mr R. G. Parish returned this afternoon from a short visit to his home at Adel, Ga. He was accompanied by his sister Miss Susie Parish. They will leave tomorrow for an extended trip to Denver, Colorado.
